

LIVE INDEPENDENTLY, BUT NEVER ALONE

Experience maintenance-free living in your private residence and as part of a lovely, supportive community.

Stay close to friends and a host of social, recreational, spiritual and educational activities. We've designed the Garden Homes at Beaumont to be resort-like, with our own professionally trained chef, fine dining experiences, salon services, social events, and more!

Each residence is equipped with a mobile emergency response system, and if you should require assisted living services over time, additional care and services are available right on the Beaumont campus.
