Café Connections is open to all people living with changes in their memory and the people who care about them. Come to connect with others and walk away equipped and encouraged.

Dr. Shannon Bland will discuss how **person-directed care** transforms the caregiver's role into a true partner in daily life — focusing on proactive, individualized support rather than simply reacting to needs as they arise. Fern Creek Highview United Ministries Activities Director, Kevin Hill, will facilitate enjoyable games and indoor recreation. Refreshments will be provided.
